

Farrell Kimble

Baltimore, MD | 301-404-6411 | fkimble1@umbc.edu | https://fkimble.github.io/digital_resume/ | <https://www.linkedin.com/in/fkimble1/>

EDUCATION

University of Maryland, Baltimore County

Estimated Grad 2026

- Major: Information Systems, Minor: Psychology, Business Analyst Certification,

Prince George's Community College

May 2020 - May 2022

- Computer Programming and Database Systems Certification

Honors: Phi Kappa Phi Honor Society, France-Merrick Scholar, 1st Place in Idea and Innovation at UMBC

Certifications: AI4ALL: Discover AI Certification, Microsoft Access Certification, Google Data Analytics Certification

Coursework: Advanced Oracle and PL(SQL), Computer Science I & II (Python & C++ respectively), Introduction to Visual Basic (HTML), Database Design (SQL), Software and Hardware Concepts, Data Communications and Networks

Leadership Experience: UMBC Stars Computing Corps: Outreach Coordinator, UMBC Shriver Living Learning Community: Peer Mentor, UMBC National Society of Black Engineers: Membership Chair

SKILLS

Soft Skills: Effective Communication, Teamworking Skills, Problem Solving Skills, Database Management Skills, Leadership

Hard Skills: Stakeholder Management, Data Modeling, Process Optimization, Business Intelligence, Data Validation

Programming Languages: Python, C++, SQL, CSS, & HTML

Developer Tools: Visual Studio/Visual Studio Code, PyCharm, CLion, Tableau, Power BI, Linux/Unix, & Oracle

WORK EXPERIENCE

Shriver Community Engaged Leader Student Intern | UMBC Shriver Center

Aug 2025 – Present

- Monitor and analyze user retention on Shriver website and social media platforms, collecting data and visualizing insights to optimize engagement strategies.
- Strengthening engagement and outreach through strategic planning and proactive communication 10+ local organizations across Baltimore.
- Facilitate 5+ meetings with student leaders of service sites throughout the semester, creating action plans to improve workload.

PROJECT WORK EXPERIENCE

Data Analyst Project Lead | Incarceration Trends | UMBC Civic Democracy and Life

Feb 2024 – Mar 2024

- Analyzed incarceration data from 20+ Maryland counties using SQL, Python, and Tableau, identifying trends and patterns.
- Conducted advanced correlation analysis with Python, revealing a 35% link between recidivism rates and facility overcrowding.
- Produced detailed reports with visualizations and actionable recommendations for policymakers, enhancing data-driven decision-making.

Data Management Project Lead | Audio Storage System | UMBC Department of IT

Sept 2024 – Dec 2024

- Designed and implemented a database system to manage 100+ audio files, creating tables for users, songs, artists, and playlists, improving data organization by 40%.
- Developed the database in Microsoft Access and migrated it to Oracle, ensuring 100% data accuracy during the transition.
- Applied normalization techniques (up to 3NF), reducing data redundancy by 60% and enhancing query efficiency.

Research Intern | AI Sense | UMBC Department of IT

Feb 2025 – Aug 2025

- Developed and tested an AI-powered wildlife deterrent system using Raspberry Pi and Arduino, incorporating computer vision and sound-based deterrents.
- Conducted field testing with 10 – 12 high school interns and participated in large-scale demonstrations, gathering feedback for iterative improvements and visualized data using Power BI.
- Explored commercialization opportunities and partnerships with conservation organizations, contributing to the project's website and documentation.

Predictive Analytics Data Analyst | Emissions Decision Support System | IS 420 Project

Sept 2025 – Dec 2025

- Designed a decision support system to analyze greenhouse gas (GHG) emissions and vehicle registration data across Maryland counties.
- Cleaned and processed large datasets using Python and Excel to align inconsistent data ranges, ensuring accurate comparison between years.
- Created data visualizations to illustrate correlations between population density, vehicle ownership, and GHG emissions for policy recommendations.

Membership Chair | Membership Database | UMBC National Society of Black Engineers

Aug 2025 – Present

- Developed and maintained an Excel-based database to track member participation, events, and demographic trends within the UMBC NSBE chapter.
- Automated data entry processes and designed dashboards for leadership to monitor engagement and retention rates.
- Presented quarterly data reports to the executive board, informing outreach and recruitment strategies for upcoming semesters.

Lead Conference Assistant | Operations Database Management | UMBC Residential Life

May 2025 – Present

- Managed and updated Excel and Onity-based databases tracking 1,000+ campus visitors and event attendees.
- Performed data cleaning, entry validation, and deletion of outdated records to maintain compliance and system accuracy.
- Collaborated with professional staff to generate weekly occupancy and visitor trend reports and resource allocation.
